contributing \$22,500 (for 2023) during any calendar year. This dollar limit is indexed; therefore, it may increase each year for cost-of-living adjustments.

- If you are age 50 or over, you may defer an additional amount, called a "catch-up contribution", of up to \$7,500 (for 2023). This dollar limit is indexed as well.
- The maximum amount you can defer is 100% of your compensation.

The Plan Administrator may establish additional rules you will need to follow when making your deferral election. Your deferral election is only effective for compensation you have not received yet. The Plan Administrator may also reduce or totally suspend your election if they determine that your election may cause the Plan to fail to satisfy any of the requirements of the Internal Revenue Code.

How often do I have to make loan payments?

You must repay your loan in accordance with the repayment schedule established at the time the loan is taken. These payment will be at least on a per payroll basis. Full or partial prepayments are allowed. If you fail to make loan payments according to the established repayment schedule and you do not correct this failure in a timely manner (as determined by the Plan Administrator) the remaining loan balance will be "deemed distributed". This means that the remaining balance will become a taxable distribution for the year in which it was deemed. However, this does not remove your obligation to repay the loan and the remaining balance plus the interest that has accrued since the loan was deemed will be taken into account when determining the maximum of any further loan and the deemed loan will count as an outstanding loan. Special repayment rules will apply if you take out a subsequent loan when you have an unpaid deemed loan outstanding.

Do I have to make my loan payments through payroll deduction?
